

5-6 October 2022, University of Copenhagen Ceremonial Hall, Frue Plads 4, 1168 Copenhagen

Hosted by CeBIL (University of Copenhagen), INAMRSS and the Global Strategy Lab (York University), in collaboration with the Social Innovation on Drug Resistance Program (Boston University) & the AMR Centre (London School of Hygiene & Tropical Medicine).

5 October 2022

Time Programme

9:00 Conference Welcome Timo Minssen, Professor, Director, Centre for Advanced Studies in

Biomedical Innovation Law (CeBIL), INAMRSS Chair, University of

Copenhagen

9:15 Opening Talks Social science research on AMR: achievements and potential

Clare Chandler, Professor, Lead for Anthropology of Antimicrobial

Resistance research group, LSHTM

Time	Programme	
9:30		AMR and the Pandemic Preparedness Instrument
		Susan Rogers van Katwyk, Managing Director, Global AMR, Global Strategy Lab
09:45		Building Evidence for Action: Gender, Norms and Antimicrobial Resistance
		Deepshikha Batheja, Economist and Fellow, Center for Disease Dynamics, Economics & Policy (CDDEP)
10:10	Clarifying Q&A	
10:15	Coffee Break	
10:45	Panel 1: Introduction	IPEA - evidence for action, how Social Science can (re)frame AMR issues
		Chair: Deepshikha Batheja, Economist and Fellow, Center for Disease Dynamics, Economics & Policy (CDDEP)
10:55		Investigating the intersectionality of power dynamics, hierarchies, and health-seeking and health-providing behaviours in hospital settings across different cultural boundaries
		Esmita Charani, Senior Lead Research Pharmacist, Faculty of Medicine, Department of Infectious Disease, Imperial College London
11:10		Integrating migrant and refugee populations in public health planning: evidence gaps and surveillance needs
		Michele Palkovits, Policy Advisor, Global Strategy Lab
11:25		Adopting a multidimensional vulnerability approach for a better understanding of the unequal distribution of risk to AMR infection
		Jens Seeberg, Professor, Department of Anthropology, Aarhus University
11:40		The Context of Antibiotic Use for Food Animal Production in Low- Middle Income Countries: An Anthropological Exploration
		S.M. Murshid Hassan, Public Health Professional and Social Scientist, Health Social Science, Faculty of Social Science and Humanities, Mahidol University

Time	Programme	
11:55		Community Based Elimination of AMR Through Mobile Telephone Alarm App
		Carine Tuyisenge, Nursing student, School of Nursing, University of Rwanda
12:10	Q&A and Debate for Panel 1	
12:45	Lunch with keynote at 13:30	Tailoring AMR Programmes (TAP) - WHO's efforts to mainstream behavioural insights
		Danilo Lo Fo Wong, Regional Adviser on Control of AMR, World Health Organization European Office
14:00	Panel 2: Introduction	Treaty - what Social Science tells us about how AMR can be meaningfully part of the pandemic treaty
		Chair: Clare Chandler, Professor, Lead for Anthropology of Antimicrobial Resistance research group, LSHTM
14:10		Challenges in the governance of AMR in Brazil: lessons learnt and contributions for a global pandemic treaty
		Juliana Silva Corrêa, Doctor of Public Health, School of Nursing, University of São Paulo
14:25		Enhancing governance of antimicrobial stewardship: an urban political ecology lens
		Raphael Aguiar, PhD Candidate, Faculty of Health, York University
14:40		The Legal Ecology of Antimicrobial Resistance
		Kevin Outterson, Professor, Co-director, the Health Law Program, Boston University
14:55		Infection prevention and control in tertiary healthcare facilities in Freetown Sierra Leone during the covid 19 pandemic
		Ibrahim Franklyn Kamara, a medical doctor and public health professional AMR Operational Research Fellow, Emergency Preparedness and Response Cluster, WHO Sierra Leone
15:10	Q&A and Debate for Panel 2	
15:40	Coffee Break	

Time	Programme	
16:00	Panel 3: Introduction	Conceptual questions and policy issues related to IPEA and AMR aspects of the Pandemic Treaty
		Chair: Susan Rogers Van Katwyk, Managing Director, Global AMR, Global Strategy Lab
16:10		Need for an enabling social science ecosystem to support implementation research for AMR mitigation in low and middle income countries
		Jyoti Joshi, AMR Advisor, ICARS
16:25		Incentivizing novelty in antibiotic development
		Gosia Majewska, PhD Candidate, Toulouse School of Economics
16:40		Using a One Health approach to identify drivers of and barriers to improving antimicrobial stewardship across various professions in Canada
		Kayley McCubbin, PhD Candidate, Production Animal Health Department, University of Calgary
16:55		Gender equity and AMR
		Fiona Emdin, Veterinary-research fellow, Global Strategy Lab, York University
17:10	Q&A and Debate for Panel 3	
17:40		Helen Yu, Associate Professor, Associate Director, Centre for Advanced Studies in Biomedical Innovation Law (CeBIL);
		Timo Minssen, Professor, CeBIL Director, University of Copenhagen
18:00	Reception	
19:30	Dinner	Location: Chambre, Jernbanegade 4, 1608 Copenhagen V

6 October 2022

9:00	Recap Day 1	Susan Rogers Van Katwyk, Managing Director, Global AMR, Global Strategy Lab
9:30	Policymaker Armchair discussion	How policymakers use evidence to design AMR strategies
		Moderator: Steven Hoffman, Director, Global Strategy Lab, Professor of Global Health, Law, and Political Science, York University
		Panelists:
		 Mahbubur Rahman, Ministry of Defence, Bangladesh William Adu, Ministry of Food and Agriculture, Ghana Saviour Yevutsey, Ministry of Health, Ghana Otridah Kapona, National Public Health Institute, Zambia Geoffrey Muuka, Ministry of Fisheries and Livestock, Zambia Yewande Alimi, AMR and One Health Prog Coordinator, Africa CDC
10:30	Coffee Break	
11:00	World Café tables	Facilitated bottom-up exercise to sketch the social science AMR research agendas for the Pan Prep Instrument and IPEA
		Facilitator: Kevin Outterson, Professor, Co-director, the Health Law Program, Boston University
12:00	World Café tables (Cont.)	Also considering the route/funding to support processes
13:00	Lunch with keynote at 13.30	Perspectives on solving the broken business model for the development of new antibiotics
		Steffen Pierini Lüders, Senior Vice President, Communication, Public Affairs and International Collaboration at Novo Nordisk Foundation
14:00	Feedback Session	From World Café tables, response from stakeholders and agreement on next steps
14:30	Substantive close summary remarks	Steven Hoffman, Director, Global Strategy Lab, Professor of Global Health, Law, and Political Science, York University
15:00	End of program	
15:30- 16:30	INAMRSS Planning Meeting	All welcome, Chair: Timo Minssen
