SPEAKERS

Tobias Dideriksen von Der Ahé

The Danish Ministry of Defence Acquisition and Logistics Organisation (DALO)

Josephine Utzon

The Danish Ministry of Defence Acquisition and Logistics Organisation (DALO)

Atakilti Gebremichael

PhD student, University of Copenhagen

Jens Munk Plum

Attorney and Partner at Kromann Reumert

Mario Comba

Professor, University of Turin

INTERESTING FACTS ON FRAMEWORK AGREEMENTS IN DENMARK

- In 2021, public procurement in Denmark amounted to approximately DKK 400 billion.
- This corresponds to approx. 1/3 of the total public expenditure and almost 1/6 of Denmark's Gross Domestic Product.
- In 2021, more than half (56%) of the total contract sum for EU tenders was offered as framework agreements. This is approximately 30 per cent more than in 2017.

Figure 2.8 The share of framework agreements of total tendering, 2017-2021

Note: Based on 12,252 EU procedures published in the period 2017 to 2021. All procedures were completed before 1 May 2022 with a contract award notice. Voluntary ex ante transparency notices, including procedures that have proceeded to the negotiated procedure after annulment, are not included in the statement. The statement of the share of framework agreements of the total contract sum is without outliers at a value above DKK 1 billion, which covers 64 procedures over the whole period. Observations with no contract value have been replaced with the average value of the procurement year, contracting entity, type of contract, and whether the contract has been tendered as a framework agreement or a public contract. For framework agreements, the estimated maximum value for the entire term of the framework agreement is applied.
