Remaking Global Trade and Shipping: Towards a Sustainable Transport Future

In May, the InterAct team hosted, in collaboration with Yale University and the Bartlett Energy Institute at University College London, a two-day workshop on the role of the WTO in supporting the decarbonization of international shipping. The outcome of the workshop will be published here.
CILG receives funding for a new research project in partnership with other KU faculties on The Danish Model for Citizen Engagement in the Renewable Energy Transition (DART). The project is financed by the Innovation Fund's Grand Solutions program with DKK 7.5 million. To hear more, contact beatriz.martinez.romera@jur.ku.dk.

The Norwegian Centre for the Law of the Sea (NCLOS) of UiT Arctic University of Norway and CILG just hosted a workshop to launch the new research network Future Arctic Law and Governance (FALG). The network is financed by the Research Council of Norway and is aimed at enhancing collaboration on Arctic Ocean research.

Rights-based climate change litigation strategies

Assistant Prof. Linnéa Nordlander unpacks the two main types of arguments used in rights-based climate change litigation, namely that climate change violates human rights as a consequence of either impacts on culture or health. Read the blog post here.

EnAct: it's a wrap

The Enhancing Climate Action through International Law (EnAct) project concluded with a conference in March 2023. The project explored the link between climate change and human rights and investment law.
